

01 Project Overview

This project focuses on performing an SEO content gap analysis for Esight Solutions to understand how its website content compares with the two main competitors in the Kochi web design market.

The purpose of the analysis is to identify which content elements Esight Solutions is missing or underdeveloped compared with competitor websites, and to use those insights to improve organic visibility, keyword coverage, and topical authority.

This project focuses only on content-related SEO factors, including:

Title tags	Meta descriptions
Meta keywords	Heading structure
Keyword usage and keyword cloud patterns	Image ALT attributes
Content depth and text volume	Section structure and content completeness

Primary Competitors:

Web Design Cochin (webdesigncochin.in)	WebCastle Technologies (webcastletech.com)
--	--

02 Business Background

Esight Solutions is a digital agency offering services in a highly competitive local market where users search for terms such as web design company in Kochi, website development in Kochi, and web designers in Kerala. Competitors like Web Design Cochin and WebCastle Technologies are stronger in content structure and service coverage, which gives them an advantage in ranking for a wider range of search terms.

Services offered:

Website Design	Web Development	eCommerce Solutions
Digital Marketing	Branding	Software Development

03 **SEO Goals**

The main goals of this content gap analysis are:

1	Compare Competitors	Compare Esight Solutions with top local competitors on content-related SEO factors.
2	Identify Weak Sections	Identify missing or weak content sections across the website.
3	Understand Coverage Gaps	Understand differences in title, description, headings, and keyword coverage.
4	Improve Content Depth	Improve content depth and search relevance across all key service pages.
5	Build Content Strategy	Build a more complete on-page content strategy for long-term organic growth.

04 **Audit Methodology**

The content gap analysis was carried out using a competitor benchmarking approach. The process involved:

1	Side-by-Side Review	Reviewing competitor pages side by side.
2	Tag Comparison	Comparing title tags, meta descriptions, and headings.
3	Keyword Analysis	Analysing keyword patterns and keyword cloud data.
4	Content Volume Review	Reviewing content depth and text volume.
5	ALT Text Check	Checking image ALT usage across all competitor websites.
6	Section Identification	Identifying sections present on competitors but missing or weaker on Esight Solutions.

05 **Tools Used**

Tool	Purpose
SEO Site Checkup	On-page and content review
Google Search	Competitor identification

Manual SERP Review	Content comparison
Website Source Inspection	Title, headings, metadata, and ALT analysis

06 Key Findings

6.1 Content Depth Gap

Website	Text Content	Text-to-HTML Ratio
Esight Solutions	5,870 bytes	13.14%
Web Design Cochin	17,172 bytes	19.94%
WebCastle Technologies	18,698 bytes	7.91%

Insight: Esight Solutions has far less textual content than both competitors. This means fewer opportunities to naturally include keywords, explain services in detail, and build topical authority.

6.2 Title Tag Analysis

Website	Title Tag	Length
Esight Solutions	#1 Web Designing Company in Kochi Esight Solutions	52
Web Design Cochin	Web Designing Company Kochi, Kerala – Web Design Cochin	55 characters
WebCastle Technologies	Web Design Company Kochi #1 Website Designing Company	55

Insight: Esight Solutions has a concise title tag, but the competitors use titles that better combine service, location, and trust signals. This makes their pages more aligned with local search intent.

6.3 Meta Description Analysis

Website	Meta Description	Length
Esight Solutions	Esight Solutions – Leading web designing, development company in Kochi. Our creative team builds fast, modern websites for your businesses.	139
Web Design Cochin	Web Design Cochin—#1 website design company in Kochi, Kerala. Customized responsive sites, WordPress, eCommerce. Get your free quote today!	139
WebCastle Technologies	One of the best Web Design and Development Company in Cochin, Kerala. We specialized in Custom Web Designing, Web Development, with professional experts from the industry.	170

Insight: Esight Solutions has a strong meta description, but the competitor descriptions include more service variety, stronger authority messaging, and richer keyword targeting.

6.4 Meta Keywords Analysis

Website	Meta Keywords
Esight Solutions	web designing company in Kochi, web development company in kochi, Web designing Angamaly, Best web design company in kochi, digital marketing in Kochi, Digital Marketing in Angamaly, #1 Web design company in Kochi, branding agency in Kochi, Website design kochi, website design Cochin
Web Design Cochin	No keywords defined
WebCastle Technologies	No keywords defined

Insight: Esight Solutions is one of the few sites using meta keywords. While meta keywords are not a major ranking factor today, the stronger SEO value comes from the actual page content and heading structure.

6.5 Heading Structure Gap

Website	H1	H2	H3	H4	H5	H6
Esight Solutions	1	6	12	5	0	0
Web Design Cochin	1	10	28	0	0	0
WebCastle Technologies	1	25	3	8	0	8

Notable Headings:

Esight Solutions	Web Design Cochin
H2: We Create Digital Experiences	H1: Web Design Company in Kochi & Kerala Trusted Since 2007
H2: Our Works	H2: Your Trusted Web Design & Digital Success Partner in Kerala
H2: What We Do	H2: Our Comprehensive Web Solutions in Ernakulam
H2: Latest Blog	H2: Our Portfolio: Featured Projects
H3: Web Design	H2: Client Testimonials
H3: Ecommerce	H2: Frequently Asked Questions About Web Design in Kochi, Kerala
H3: Digital Marketing	H3: Web Design Services
H3: Branding Solutions	H3: Web Development in Kochi
H3: Web Application	H3: SEO Services
H3: Mobile App	H3: E-commerce Development
H3: Custom Software	H3: Digital Marketing
H3: CRM Software	H3: Branding Services
H3: ERP Software	H3: WordPress Development
H3: Corporate Video Shooting	H3: Content Writing
H3: Packaging Design & Logo Design	

Insight: Esight Solutions has a basic heading structure, but the competitors use headings more strategically. Their headings support service pages, testimonials, FAQs, and local intent much more clearly.

6.6 Keyword Cloud Comparison

Website	Top Keyword Terms
Esight Solutions	company (48), designing (21), development (19), design (15), work (9), best (8), digital (8), kochi (7), marketing (7), mobile (7), team (6), esight (5), customer (4), service (4)
Web Design Cochin	website (45), design (41), company (28), kochi (16), digital (15), kerala (14), development (14), content (12), services (11), marketing (11), business (11), expert (10), site (9), trusted (7), team (7)
WebCastle Technologies	design (22), designing (19), company (19), services (17), development (17), webcastle (14), website (13), solutions (10), clients (9), team (9), about (8), video (8), digital (8), have (8), user (8)

Insight: Competitors use a broader keyword mix that includes more service, trust, and location language. Esight Solutions is more concentrated around company and design terms, which reduces semantic reach.

6.7 Image Optimisation Gap

Website	Images Found	Missing / Empty ALT Attributes
Esight Solutions	50	4
Web Design Cochin	20	0
WebCastle Technologies	160	78

Insight: Esight Solutions is performing better than WebCastle Technologies in this area, but there is still room to improve accessibility and image SEO by adding descriptive ALT text to every important image.

6.8 Content Structure Gap

Competitor websites include several content sections that are either missing or less developed on Esight Solutions:

Content Section	Esight Solutions	Web Design Cochin	WebCastle Technologies
FAQ Section	Limited / not clear	Present	Present
Client Testimonials	Limited	Present	Present
Detailed Service Pages	Broad / general	Strong	Strong
Portfolio Showcase	Present	Extensive	Extensive
Trust Messaging	Moderate	Strong	Strong
Local Service Positioning	Present	Strong	Strong

Insight: This is the clearest content gap: competitors are using more complete content blocks that improve keyword coverage, user trust, and search relevance.

07 Implementation

On-Page Improvements

Add or refine the H1 heading on the homepage	Expand homepage content with more detailed service explanations
Optimise title tags and meta descriptions with local keywords	

Content Expansion

Create additional sections such as:

Web design process	Industries served
Client success stories	Frequently asked questions
Service-specific content blocks	Stronger portfolio summaries

Image Optimisation

Add descriptive ALT attributes to all key images	Use image names and alt text that match service topics
--	--

08 SEO Recommendations

Key SEO improvements recommended from this content gap analysis include:

1	Content Depth	Increase content depth to match competitor websites.
2	Heading Structure	Improve heading structure using H1, H2, and H3 tags.
3	Keyword Coverage	Expand keyword coverage with more related service and location terms.
4	FAQ & Testimonials	Add FAQ and testimonial sections to improve trust and keyword breadth.
5	Portfolio & Services	Strengthen portfolio and service explanation content.
6	Image ALT Text	Improve ALT text on images for accessibility and image SEO.
7	Blog Strategy	Create a broader blog and content strategy around web design topics.

09 Priority Action Plan

Priority	Action
High	Increase homepage content depth
High	Improve heading structure
High	Add FAQ section
High	Expand service descriptions
Medium	Add testimonial and trust blocks
Medium	Improve image ALT text
Medium	Strengthen local keyword coverage
Low	Refine supporting content sections

10 Expected Results

By implementing the recommended content improvements, Esight Solutions can expect:

Better keyword coverage	Stronger topical authority
Improved visibility for local web design queries	Better user trust and engagement
More competitive positioning against local agencies	Improved organic lead generation

This content gap analysis shows that Esight Solutions has a solid foundation, but its content is less developed than the two main competitors in this study.

The biggest gaps are in:

Content depth	Heading structure
Keyword breadth	FAQ and trust content
Image ALT optimisation	

By improving these areas, Esight Solutions can create a stronger and more complete website that better matches search intent and competes more effectively in Kochi's web design market.

A. Competitors Analysed

Web Design Cochin (webdesigncochin.in)	WebCastle Technologies (webcastletech.com)
--	--

B. Content Metrics Reviewed

Title tags and lengths	Meta descriptions and lengths
Meta keywords	Heading structure
Keyword cloud patterns	Text content volume
Image ALT attributes	Content sections and trust elements
