

Digital Marketing Dashboard

This dashboard provides a comprehensive overview of Technolodge Group's digital marketing performance for 2020. It tracks nine key metrics — including Total Sales, Market Spend, Conversion Rate, Click-Through Rate, Impressions, Clicks, Likes, Comments, and Shares — each displayed with a year-on-year trend line and percentage change vs. the previous year. Use the Media filter (top right) to drill down by channel and identify what's driving growth or decline.

Web Traffic Dashboard

This dashboard presents a detailed snapshot of Ann's Handcrafts website traffic for July 2023. It covers 37,449 total sessions and breaks them down by country, device type, acquisition channel, and referral source. Key engagement metrics — average session duration, unique page views, and total time on page — are highlighted alongside a most-visited pages table showing sessions, dwell time, and bounce rate per page. Click any chart to cross-filter the entire dashboard and uncover deeper audience insights.

Customer Lifetime Value Dashboard

This cohort report from Alex and Co. visualises cumulative Customer Lifetime Value (LTV) across quarterly acquisition cohorts from 2020 Q1 to 2024 Q4. Each row represents a cohort of newly acquired customers, and each column shows how their cumulative LTV grows quarter by quarter since their first order. The heat-map colouring — red to green — makes it easy to spot high- and low-performing cohorts at a glance. Early cohorts (2020) demonstrate strong long-term retention with LTV reaching up to \$6,790, while recent cohorts show promising early signals. Use this view to benchmark retention trends, evaluate acquisition quality, and inform upsell strategies over time.

Alex and Co. Cohort Report

Customer Lifetime Value

This visual represents the cumulative **Customer Lifetime Value (LTV)** by cohort, showing how customer value evolves over time since acquisition. Each row represents a quarterly acquisition cohort, and each column shows the cumulative LTV by quarter since first purchase. This helps us identify trends in customer retention, purchase behavior, and cohort performance over time.

		Quarters Since First Order																			
Date Acquired	Customers	0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19

2024 Q2	169	\$1,878	\$1,928	\$2,012																	
2024 Q3	102	\$1,708	\$1,793																		
2024 Q4	148	\$2,158																			

- **Strong Growth in Early Cohorts:** Customers acquired in 2020 Q1 show the highest LTV at quarter 19 (\$6,790), highlighting strong retention and engagement.
- **Recent Cohorts Show Initial Promise:** While still early, customers acquired in 2024 Q1 and Q2 show similar LTV patterns as high-performing older cohorts.
- **Lower Initial LTV in Recent Cohorts:** Some of the most recent quarters (e.g., 2024 Q3/Q4) show lower initial value, suggesting a need to evaluate acquisition quality or early engagement strategies.
- ✓ **Consistent Value Growth:** Across most cohorts, LTV consistently increases quarter-over-quarter, indicating strong retention and upsell performance.
